#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1, 7, 10 and 13-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnson et al (6,163,016).

Johnson teaches a sleeve heater (Fig. 12-14) an electrically and generally cylindrical heater coil 164, a radially compressible and generally cylindrical inner sleeve 162 snugly coaxially externally surrounding the heater coil and radially inwardly bearing on the coil, and radially generally inextensible and generally cylindrical outer sleeve 160 fitted coaxially over the inner sleeve and having an inner surface bearing tightly radially inward on the inner sleeve and radially compressing the inner sleeve and the coil inward.

As for claims 7 and 10, the outer sleeve 120 has an axially tapered inner surface 150 axially engageable with an end of the inner sleeve, and an inwardly projected rim 126.

As for claim 13, Johnson discloses an electric heater for steel molds and a metallic tubular coil sheath (col. 6, lines 2-6) and therefore both sleeves are made out of metal.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2-6 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson.

Johnson discloses substantially the claimed invention in the 1<sup>st</sup> embodiment, shown in Fig. 12-14, but does not show a sleeve having slots. In the 2<sup>nd</sup> embodiment, shown in figures 6-8, Johnson discloses an inner sleeve 80 with number of slots. It would have been obvious to one having ordinary skill in the art to modify Johnson's invention in the 1<sup>st</sup> embodiment to include a sleeve with slots from the 2<sup>nd</sup> embodiment in order to compress the sleeve and the heating coil.

As for claim 8, it would be obvious to make the tapered inner surface of the outer sleeve 130 about 10 mm long as an optimal design choice.

***Allowable Subject Matter***

5. Claims 9 and 11-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments with respect to claims 1-8, 10 and 13-14 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
